Dear Phil:

Thank you, thank you! The entertainment you provided for our son Zachary's bar mitzvah was terrific! Our guests were talking about how great Ross the MC was and how the games for the kids were perfect for keeping them busy. Ian and I were so happy with the song selection, we could not have asked for better.

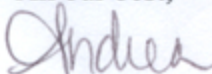

From the first time we sat down with you, we received your undivided, personal attention. You assured us that our music would be great and you gave us fantastic advice about how to entertain the kids (and with 50 boys, that was not easy!). You delivered on every single thing you promised and then some! What we really liked was how you listened to us and what we wanted for our party. You fulfilled every little wish we had and did not miss one detail.

I also have to say that the dancers were terrific. They made our son feel special and added great energy to the party.

We will soon be booking our other son Michael's party with you. We just want to confirm the date. Please feel free to give out our name to other potential clients because anyone looking for entertainment should look no further than Full Throttle.

Thanks again, Phil!

All our best,

Andrea Schaja
